MEMORANDUM FOR: Deputy Director for Science & Technology

FROM: Director of Central Intelligence

SUBJECT:

25X1

Dick Helms called and recommended that I speak with . He called several times and I talked to him today. It turns out that he has what he calls a very exciting method of reviewing, evaluating, and making decisions on which he has been working with the Advanced Concepts people in ORD. I agreed to listen to him and a meeting has been set for 14 April at 11:00. I pass this along to you so that you will be able to designate the appropriate person to join me in listening.

25X1

William J. Casey
